

**The United States Environmental Protection Agency – Region 4
Announces an Extended Comment Period for the Barite
Hill/Nevada Goldfields Superfund Site located in McCormick,
South Carolina**

The United States Environmental Protection Agency (EPA) is preparing to issue a Proposed Plan for the Barite Hill/Nevada Goldfields Superfund Site located in McCormick, South Carolina.

The EPA Public Comment Period will be extended until April 7, 2020, to seek public input on the Proposed Plan.

During the comment period, the public is encouraged to review the Barite Hill/Nevada Goldfields Administrative Record and offer comments on all site- related documents. You can find these documents located at the Information Repository housed at the McCormick County Library, located 201 Railroad Avenue McCormick, South Carolina.

Prior to final selection of a remedy, the EPA will consider oral and written comments from the public and provide responses to those comments. Written comments on the Proposed Plan should be submitted **no later than April 7, 2020**, to Candice Teichert, EPA Remedial Project Manager, US-EPA Region 4, Superfund Division – 11th Floor, 61 Forsyth Street, SW, Atlanta, Georgia 30303, or via email teichert.candice@epa.gov .

**For further information, please contact Abena Moore, EPA Community
Involvement Coordinator, directly (404) 562-8834 or via email
moore.abena@epa.gov**
